AUTO WORKERS AND GM SIGN AT 11½ CENTS

Reuther Declares Union Actually Has Gained 15-Cent Boost

(By Associated Press)
DETROIT, April 25.—The CIO United Auto Workers settled with General Motors Corp. last night for a 11½ cent basic hourly wage increase, but UAW President Walter P. Reuther said the union had gained a total economic package well over 15 cents.

The new agreement—being prepared for corporation and union signatures today—was expected to set a pattern for the auto industry's wage drive this year.

Under its terms 320,000 General Motors production workers will get, in addition to the hourly boost, pay for six holidays which the corporation said is equal to an additional 3½ cents an hour, and new vacation benefits.

This contract means more financially than the union's earlier offer to settle for a flat 15 cents, a tired Reuther declared after the final night negotiating session.

Provisions of Pact
Louis G. Seaton, GM director of labor relations, and Reuther announced that these three points were covered in the pact:

- 1.—An 11½ cent hourly increase to take effect as of April 24, subject to ratification by the union May 5.
- 2.—Six paid holidays—New Year's, Memorial day, July 4, Labor day, Thanksgiving and Christmas—for employees with six months seniority on the job.
- 3.—Improved vacation and "call-in pay" benefits. This includes pay in lieu of a vacation on the basis of 40 hours pay for employees with one year's seniority on July 1 of this year; 60 hours for those with three years and 80 hours for those with five years.

The "call-in pay" amount referring to pay for workers who, for reasons beyond their control, find no work after being called in was raised from three to four hours.

Train Schedule Change Affects Mail Dispatch

Effective Sunday, a change will be made in the time of certain mail trains on the Pennsylvania railroad. This change moves Salem's two best evening connections ahead so that mail must leave the postoffice at 4:30 p. m. daily.

In order for us to have time to have it at our office not later than 3:30 p. m., Postmaster A. E. Beardsmore announced today.

We are trying to arrange a later dispatch for first class mail so that it will make connections at Cleveland and Crestline without too much delay. However, this may not be too good as it may miss connections occasionally. So our best and surest will still be the 4:30 dispatch.

In addition no parcel post will go on this proposed later dispatch to any late arrival of parcels will have to be held over until 10:30 the next morning before being sent out.

Publishers Hear Truman Price Policies Attacked By Young

(By Associated Press)
NEW YORK, April 25.—Price policies of President Truman were attacked last night by Robert R. Young, chairman of the board of the Chesapeake & Ohio railroad, and Sen. Robert A. Taft (R-Ohio).

Both spoke at a dinner sponsored by the bureau of advertising of the American Newspaper Publishers association, including the annual ANPA convention.

Election of Richard W. Slocum, general manager of the Philadelphia Bulletin, as chairman of the bureau's governing board, was announced at the dinner.

Slocum succeeds Roy D. Moore of Canton, O., president of the Brush-Moore Newspapers in Ohio. Irwin Maier, publisher of the Milwaukee Journal, succeeded Slocum as vice chairman.

Young, who has been extending his influence in rail circles rapidly, told the newspaper men that there were "nationwide monopolies in labor, agriculture and industry, imposed or encouraged by a coalition in government, but 'the seat of all monopoly in America is in the railroads.'"

Says Private Enterprise Suffers
"In the increasingly frequent tirades of the President against prices his political Frankenstein, does he ever suggest economy in government or an end to farm coddling?" Young asked.

"No, he again bludgeons private enterprise at its very nerve center, the profit margin, just as he struck it there below the belt immediately after V-E day by egging on monopolists in labor."

"You and I know tens of thousands of businesses which are not making excessive profits which are frightened by the President into abandoning their plans for expansion—thus putting still more pressure on prices."

Rev. Mosher Resigns Friends Pulpit Here, Effective Sept. 1

Rev. Mosher

Rev. Robert E. Mosher, pastor of the First Friends church for nearly five years, has given his resignation to this congregation, effective at the close of the pastoral year, Sept. 1.

He is expected to go to the Damascus Friends church, which voted last night to extend him an invitation.

Rev. John Williams, pastor of the Damascus church, has resigned to take up mission work in China, where he expects to go this fall.

Active in the Salem Ministerial association, Rev. Mosher has served as president and secretary. For one year he served as superintendent of Friends churches in this district. He is a trustee of Cleveland Bible college.

Rev. Mosher came to Salem from Hughesville, Pa. The Mosheres have four children, Claude, ministerial student at Asbury college, Wilmore, Ky.; Edwin (Budd) who is graduating from Salem High school this year with first honors; Curtis, high school freshman, and Lucille.

Juniors Score Hit In 'Date With Judy'; Repeat Play Tonight

A near-capacity house in the Salem high school auditorium Thursday night thoroughly enjoyed the Junior class play "A Date With Judy."

The three-act comedy production was well-acted throughout, with Marjorie Hanna and Robert Coppock particularly good in their parts. Miss Hanna plays the lead role, that of "Judy."

The last performance will be given at 8:15 tonight in the auditorium. Some tickets are still available.

The play is directed by Miss Edith Cope. She is assisted by Students Lois Barnard, Miriam Bauman and Sally Lou Zeigler.

Included in the cast are Joan Shepard, Odessa Bohner, Lee Ward, Gloria Vincent, John Wilson, Carol Kelley, Jamesetta Fox, Arnold Segelman, Donald Maxson, Gloria Steffel, Margaret Sommers and Sally Hurlbert.

Lisbon Air, Sea Scouts Plan Tuesday Installation

LISBON, April 25.—An installation ceremony for Air and Sea Scout Units 92 of the Columbiana council, Boy Scouts of America, will be held at Lisbon High school at 7:45 p. m. Tuesday.

The new troop, sponsored by the Methodist church, will be led by Scoutmaster Charles Roessler.

The installation will be made by the Canton Air Scout squadron No. 1. The squadron also will stage several demonstrations.

Mother Asks to Serve GI Son's Life Term

QUINCY, Mass., April 25.—Mrs. Connie Di Bartolo wired President Truman today to ask that she might serve "the long life sentence" imposed on her 23-year-old son, Michael, by an American court martial in Livorno, Italy, yesterday for desertion.

She told the President that she will still call "an American hero of World War II" the son who was missing until last November when he walked into UNRRA headquarters in Rome and asked about reports of the battle of Cassino.

Di Bartolo said he was suffering from amnesia but was examination by army doctors he was ordered to stand a court martial.

Qualifies for Star Scout Rank at Review Meeting

William McCormick of Boy Scout Troop 3 was awarded merit badges in pioneering, safety, firemanship and metal work when the Boy Scout board of review met Thursday evening in the Memorial building.

These awards give McCormick a total of five merit badges and qualifies him for the rank of Star scout, which will be awarded in the near future. He now holds the first class rank.

Everett Crawford, second class scout of Troop 3, was awarded a merit badge of bugling and music.

Richard Carey of Troop 13, Leontia, was advanced to second class scout.

NEWBURYPORT'S CAMPAIGN GAINS

Massachusetts Town To Extend Price Experiment Indefinitely

NEWBURYPORT, Mass., April 25.—With sales still booming, retailers in this coastal community prepared today to extend indefinitely their 10-day experiment in "rolling back" prices 10 percent on everything.

More communities—and wholesalers, too—throughout the nation were enlisting in the "Newburyport plan" as its sponsors insisted it was not a "mark-down sale."

Norman J. Randell, director of the Essex development council supporting the plan, said hundreds of inquiries reached his office and that it was clear much misunderstanding had developed.

"Some seem to think this is a mark-down sale," he asserted. "It isn't. Price tags aren't being changed. It's just that the consumer is refunded 10 percent of the amount of his purchase."

Even bar rooms were joining in the crusade launched Tuesday in response to President Truman's appeal that prices be cut.

In many bars, you get a cent back on a glass of beer.

Chester Saunders, who owns a neighborhood drug store, has introduced a novelty. Handling a large volume of low-priced items, he has placed a bowl filled with pennies on the counter with a placard "help yourself to your 10 percent refund."

BAPTIST CAMPAIGN FUND NOW \$3,466

The Baptist church's building fund drive netted \$44 overnight as church officials spurred plans for an extended drive.

This places the total now subscribed to \$3,466.41.

Latest contributions, many of which are being sent to The Salem News, included gifts of \$20, \$10, \$5, \$5 and \$4.

Farm Wage Rates Set For Season

Columbiana, Mahoning and Trumbull county agriculturists, meeting Wednesday evening in Columbiana town hall to determine the average of farm labor wages that will be paid this season, found that the level will be nearly the same as last year, with only a few slight increases and decreases.

Another meeting later may be necessary if the fruit and potato picking should prove unusually good or unusually poor.

The meeting is held in accordance with Federal requirements, with special reference to the compensation for imported labor, Jamaican, Mexican, or from other states.

Its findings are not hard and fast, and except that imported labor shall not be paid less than the averages reported, leaving growers to be governed in other respects by circumstances.

PARKING VIOLATION TICKETS TOTAL 80

A total of 80 parking tickets were issued by Salem police Thursday, the first day of enforcement of the new meters.

Mayor R. R. Johnson issued no fines, although many of the ticketed drivers appeared before him. First-time warnings were issued by the mayor, but fining of violators will begin at once.

Drivers have 10 days after summons are issued to appear in court. If an appearance is not made, police will issue a warrant for the driver's arrest.

One other ticket was issued Thursday, for parking too far from the curb, and the driver was fined \$2.

Phone Strike Discussed At White House

WASHINGTON, April 24.—President Truman and his cabinet discussed the nation-wide telephone strike today.

There was no indication, however, of prospective government action other than federal conciliators' moves for new union-management negotiations in the 19-day-old tie-up.

Cabinet members told reporters that the strike "came up" during their 35-minute session with the President.

Secretary of Interior Krug said the "only new thing" is that "they are starting all over again."

He referred to the union-management meetings arranged here by federal conciliators seeking to end the strike.

The government began its new attempt to force a break in deadlocked wage negotiations as the strikers' defense fund swelled with gifts from labor union allies, and the companies reported mounting instances of cable-clashing and tampering.

Today's separate conferences—arranged under federal pressure—were between union representatives and officials of the long lines division of American Telephone and Telegraph Company at one session and the Southwestern Bell Telephone company, largest of the more than 20 Bell subsidiaries at the other.

Both groups had tried it before.

Kiwanis Club Is Told of 'Three I's' of Motoring

An interesting talk was given to the Kiwanis club Thursday in the Memorial building by Charles D. Vibberts, director of safety of the Ohio State Automobile association.

He spoke on "The Three I's"—Ignorance of traffic rules and laws, inefficiency of persons driving automobiles, and intolerance of the drivers with respect to the rights of other drivers. He said that 793,000 persons were killed and 23 million people injured in traffic accidents since 1933.

"Safety in motoring can be achieved only through the full cooperation of the motorists themselves," the speaker said.

Albert Morris was program chairman.

Dr. Emeny Sees Russia Remaining Weak Nation

HIRAM, April 25.—Dr. Brooks Emeny, president of the Cleveland Council of World Affairs, asserted today that Russia was a relatively weak nation and probably would remain so for another generation.

Addressing the Ohio Valley Regional International Relations club, he said a Soviet revolution was "by no means an impossibility."

MAJOR ISSUES OF BIG FOUR ARE UNSOLVED

U. S. Secretary Expresses Regret Over Lack of Progress

(By Associated Press)
MOSCOW, April 25.—Secretary of State George C. Marshall winged through European skies toward home today to report to the American people on Big Four negotiations which broke up last night in almost complete disagreement on the major issues involved in concluding peace treaties for Austria and Germany.

"I am sorry that we did not make more progress," Marshall said just before boarding the four-engine plane which is scheduled to set him down in Washington tomorrow night, "but I imagine that as we look back in the days ahead we will see that much more was done than we realized at the time."

Using the same line of thought he employed in a toast last night at a sumptuous farewell banquet given by Prime Minister Stalin in the Kremlin, the American secretary told his audience at the airport that he came from "a young country, and therefore an impatient country."

Peace Still No. 1 Aim
But, he added, "Our purpose, even in our impatience, is utterly sincere—to see that peace comes to the world and to the minds of men."

Marshall said he was not certain when he would make his radio report, but that it probably would be some time after Sunday night.

The American secretary, who was the last of the visiting diplomats to arrive in Moscow for the conference which opened March 10, was the first to depart.

Accompanying Marshall on the plane, which took off at 9:02 a. m. (1:03 a. m. EST), were John Foster Dulles, his Republican adviser; Col. Marshall Carter, his secretary; Charles E. Bohlen, his interpreter; and H. Freeman Matthews.

Dulles, in a statement issued for release at takeoff time, said the United States had hammered out during the 46 days of the Moscow conference "specific policies which in the long run should accomplish more than agreements which inevitably would have involved much compromise."

An important by-product of the negotiations, he said, "has been the increased unity between the British, French and ourselves."

"This is good," Dulles continued, "but it is not good enough. We all want four-power unity. The key to that is increased tolerance rather than compromises of principle."

Stalin Toasts Truman
The final breakup of the conference came with friendly spirits prevailing despite the sometimes harsh and blunt disagreements over the basic issues at stake, and this good will was especially noticeable at last night's lavish banquet in the Kremlin.

More than a score of toasts were drunk. Prime Minister Stalin raised his glass to President Truman in what probably was the diplomatic highlight of the affair. All of the distinguished guests downed the contents of their glasses—most of which held wine—when the Russian leader proposed this toast.

He Who Laughs First

NBC now knows it has muffed one. The sanctity of its vice presidents isn't worth the commotion caused by the editing it did on scripts for three of its recent commercial programs.

When radio transmits some of the keenest twitting and saltiest sallies of the day, its own brass hats would be well-advised to prove they can take it and keep smiling.

Radio chains have an indisputable right to edit what they put on the air. But, having that right, they are responsible for exercising it in a manner that leaves the public satisfied.

Newspapers have been through this mill; they are going through it every day. Their editors stand or fall on their judgment. If they fail, the readers buy another newspaper. If radio chains miff too many decisions, the listeners will turn to another station. That's part of the freedom of the press—the freedom of readers and listeners to give their business to the opposition.

That's why it can be said that NBC has muffed one. It has raised its listeners' eyebrows and blood pressure over the piddling issue of a radio comic's right to kid an NBC vice president. There is plenty of stuff in radio scripts these days that could be thrown out on perfectly defensive grounds. When the radio industry goes to work on it, there won't be much time left to stew and fret over the sanctity of its vice presidents.

The Time of Day

Sunday is the day when many cities and districts relinquish an hour which they reclaim in autumn. In addition to providing a problem for horologists who must move the massive hands of huge clocks, it also behooves those on "slow" time to remember Jack Benny comes on an hour earlier.

There is much to be said in favor of daylight saving—and city-dwellers like to say it. On the other hand, farmers, who oppose it, also can muster formidable arguments—and do, if someone even looks as if he were about to bring up the subject.

Daylight saving is loaded with political dynamite. The time of day is something that concerns us all, like sunshine or the air we breathe. Because of its immediacy, everyone has an opinion on it. The way to settle the subject for once and for all would be to put it to popular vote, but in November daylight saving is a remote topic. That's why the annual wrangle over it is as certain a sign of Spring as the first awning fire.

Ready For The Lecture Circuit

Henry Wallace is not telling Europeans anything new when he says the hardening of relations between the United States and Soviet Russia has serious implications for them. Nevertheless, tickets for his discourses are in great demand. A week before his speech in the 2,500-seat Paris Sorbonne amphitheater, there were 10,000 requests for tickets.

When he returns from Europe, Mr. Wallace is scheduled to start an American speaking tour. He is not likely to be saying anything not said before, but after his European buildup he'll have an A-1 rating on his lecture agency's list. He has made so many Americans see red and had so many reams of publicity that his tour will be a sellout.

Don't mark Henry down as an other-worldly mystic who knows only about such recondite subjects as chicken genetics and wheat pollenization. By virtue of his trip abroad, he got himself an American audience he never would have had by other means, in addition to which his trip qualifies him to speak on a new subject, "Fellow-Traveling in Darkest Europe."

Time For Some Action

Perturbed at the failure of Attorney General Clark to press contempt proceedings against two Communist witnesses who flouted the authority of a congressional committee, Representative Thomas of the un-American activities committee is asking President Truman for action.

How to build a fire under a remiss Department of Justice—that's the problem of a Congress which feels slick Communists have been making a mockery of its authority. The Justice Department's record in contempt prosecutions has been a shockingly bad one since 1940 when cases of this type became common.

If the law is poorly written, the attorney general should ask for a better one. Whatever the excuse for the delay, when congressmen begin muttering about impeachment proceedings, as they are now, it's time to act or explain.

Gas Comes Into Its Own

Heretofore regarded principally as a fuel, natural gas in the next few years will become the source of vast quantities of synthetic gasoline, industrial alcohol and other chemicals.

The American Chemical society estimates that in the next decade 20 percent of America's gasoline supply will be made from gas, with the result that it will in effect almost double the nation's vanishing petroleum resources. Gas also will take the place of molasses as the source of industrial alcohol. Since the nation's supply is estimated at 160 trillion cubic feet, our needs should be taken care of for the next generation or two.

Thus does natural gas move to the fore as one of our principal resources. What used to be burned off as a nuisance in the oil fields is taking the place of coal in many factories and homes; it is collected, piped, liquefied, stored and "cracked." It will be one of the big wheels in our national economy.

A RATHER critical state of affairs prevails on this day, largely due to a runaway tongue and temper, in which the impulses and emotions get the better of sane and logical judgment.

The mental attitude may be found misleading, obscured by entanglements, snares and fraudulent circumstances put over with the intent of malicious and intriguing purpose.

Birthday Forecast

Those whose birthday it is may find themselves in a period of treacherous and dangerous circumstances, with deep-seated and malicious undercurrents at the very foundations of home, health and happiness as well as various forms of material advantage.

While the sinister situation may arise from outside it may be heightened, stressed and prolonged by exhibitions of violence, hatred, suspicion and vengeance. The mind and health may be upset and various complications accrue from ungoverned conduct.

A child born on this day should benefit by an early supervision of its erratic, turbulent and whimsical emotions. Training and discipline may be required for its best character development.

A professor at Teachers' College, Columbia University, says, "Children learn best when they go and see, rather than sit and study." Well, the zoo is a nice place.

In Michigan a man routed three policemen with dish water. Just like their wives do at home?

Some optimists are just too lazy to kick.

Behind The Scenes In Washington

News Notes Of Activities Of Ohio Senators, Representatives

(By Associated Press)

WASHINGTON, April 25 — Rep. Robert F. Jones (R-Ohio) accused Interior Secretary Krug today of attempting to keep a \$24,000,000,000 departmental "kitty of frozen funds" for release next year "in an effort to whip every Republican congressman."

Jones, chairman of an appropriations subcommittee, outlined to the house the Interior department's appropriation bill, which the subcommittee slashed 47 per cent.

He contended that critics of the cut are conducting a "smear campaign" of misinformation.

Rep. Murdock (D-Ariz.) already had protested the cuts in general as a "stunning blow to the west" and a \$83,234,600 cut in reclamation bureau funds in particular as meaning "sterilization."

Jones asserted:

"This is not a fight between the East and West. This is the fight to protect the west from its exploiters in the Interior department by providing sound development and pointing out the need for sound legislation which will bring money into the reclamation fund for further orderly development of the natural resources of the west."

"Secretary Krug's condemnation of this bill reminds me of a buso-profoundo walking out from the wings on Truman's grand opera anti-inflation production, stepping to the footlights and singing the popular ditty, 'All Or Nothing At All,' while the chorus of spenders, the tenors, altos and sopranos of the New Deal uptown and kick in tight across the stage."

"And they get their cue from the White House."

WASHINGTON, April 25.—Demands of more than a score of Ohio cities for feeder line air service were presented to the Civil Aeronautics board today by their congressmen.

Rep. Carson (R-Ohio) told a reporter that Vice Chairman Oswald Ryan expected a decision within 30 days.

The hearing was arranged at a meeting called by Rep. Jenkins (R-Ohio) to protest failure of the board to authorize local service to connect 23 cities with cross-country air lines at Cleveland, Cincinnati, Columbus and Toledo, Ohio, and Huntington, W. Va.

"I don't see how the board can escape the argument that Ohio is entitled to its feeder service which has been authorized in 32 other states," Carson said.

Urges Income Tax Slash By Congress

WASHINGTON, April 25.—John W. Hanes, former under-secretary of the treasury, said today the nation could have both tax reduction and debt reduction if congress proceeds with its "present plan" of slashing President Truman's 1948 budget.

He urged, in a statement prepared for the senate finance committee, that the income tax reduction bill already passed by the house be enacted speedily.

Hanes was one of the first advocates of an income tax cut invited to testify before the committee which has devoted two days to hearing government officials criticize the bill.

GUARDING YOUR HEALTH

When The Air Is Polluted

By HERMAN N. BUNDESEN, M.D. ONLY of recent years have medical men come to rank polluted air with polluted water as a cause of disease, and even today we are just beginning to realize the total bad effects which may come from breathing smoke-filled air.

The average person breathes in from 7,000 to 10,000 quarts of air daily. If this air contains irritating substances, they are, in large part, left behind when the air is breathed out again, being deposited in the nose, sinuses, windpipe or lungs.

Cases of Pneumonia

Dr. Clarence A. Mills of Cincinnati has made studies which indicate that the greatest number of pneumonia cases occur in areas where the smoke pollution is greatest.

Smoke, of course, does not cause pneumonia directly but Dr. Mills thinks it does set up a constant irritation of the air passages which makes it easy for disease germs to gain a foothold and start an infection.

In a number of cities he found that persons living on hills or in the areas of the city of the highest altitude did not suffer from pneumonia nearly as often as did those living in the lower areas. Dr. Mills thinks that such infections as colds, sinus infection and bronchitis would also show a similar relationship to pollution of the air with smoke.

Respiratory Infections

It is well known that respiratory infections cause more illnesses which result in loss of working time and efficiency than does any other class of disease.

Even though treatment with penicillin and the sulfonamide drugs has reduced the number of deaths which occur from pneumonia and similar conditions, the number of cases of these diseases is as great as ever.

With the growth of large industries in many communities and the

consequent greater pollution of the air with smoke it is to be expected, if Dr. Mills is correct, that even more cases of pneumonia and other respiratory infections will develop. It is evident that pollution of the air is destructive and costly. Those responsible for the health of the public are well aware of these facts and are making every effort to cut down smoke pollution of the air in every way possible. However, this is by no means a simple problem and will require for its solution the combined efforts of all those interested in the public health.

Dr. Wilcoxon Heads New Cancer Fight

CLEVELAND, April 25 — Physicians at University hospitals announced today they were introducing a new method of cancer detection on an experimental basis.

Should the method work out, said Dr. Robert H. Bishop, Jr., director, some physicians believe it will result in earlier detection of the disease than is possible under the generally accepted technique.

The new system doctors explained, is based on a study of body secretions, for cells shed from cancers. Thus, a malignant organ might be detected in its early stages if the liquid secreted in the tissue discloses cells of the cancer.

Under the established method, a small part of the growth is removed surgically, dried and stained, then studied microscopically for diseased cells.

In charge of the University hospital project will be Dr. George M. Wilcoxon, native of Alliance, O., and a physician from the University of Chicago.

Dr. Wilcoxon studied with George N. Papanicolaou, professor of anatomy at Cornell university and a leading proponent of the so-called smear method of cancer diagnosis.

A flight surgeon during the war, Dr. Wilcoxon narrowed his field to gynecology after his discharge with an emphasis on cancer. He told a reporter hundreds of technicians should be trained in the new technique so that it could be made a tool for a country-wide preventive program.

Wilcoxon formerly coached football at Alliance High school.

Warn Against Lowering Tariff On Pottery Ware

(By Associated Press)

WASHINGTON, April 25.—American manufacturers of chinaware told congress today a lowering of the tariff on vitrified china would enable foreign producers "employing excessively cheap labor and child labor to sell at prices ruinous to the United States industry."

The industry's statement was submitted to the house ways and means committee, now investigating the operation of the reciprocal trade treaties.

Robert F. Martin, speaking for the industry, voiced concern at negotiations under way at Geneva in connection with the international trade conference.

"We in the china industry," Martin said, "hope that the American negotiators now at Geneva will realize the life and death power that they have over the American china industry and distinguished between foreign trade expansion based upon equality, which adds to mutual prosperity, and foreign trade expansion based upon sweat and child labor, which destroys."

Ask State Legislature To Study Price Control

COLUMBUS, April 25.—Mahoning county's Democratic delegation of four in the house of representatives today asking congress to make "a comprehensive and thorough study of the price control system."

The delegation, headed by Rep. John F. Cantwell, house minority leader, asked the study "in order that the people of the United States may be spared the holocaust of a runaway inflation cycle which daily is becoming more and more imminent unless stopped by government intervention, and which if not prevented will sap the very life blood of the nation."

Ohio House To Vote On Appropriation Next Week

COLUMBUS, April 25.—The Ohio house of representatives was informed today that the \$533,000,000 biennial appropriation bill—major item of business in the legislative session—would be brought up for a vote in the house next week.

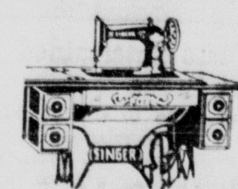

Rep. Paul McCormick, house ma-

majority leader, said the house might be required to work through next Thursday and Friday. It normally holds only a brief session on Thursday and adjourns for the week.

"We are preparing to push the work of the house through to completion," McCormick announced.

Club Shows Up Feminine Faults

By ALICIA HART

HOW DO YOU rate with your women's club?

Those members who become presidents and chairmen and direct important drives usually have to learn to lick some common feminine faults. So ceteran clubwomen say.

One fault they cite is hypersensitivity. This shows up as pride that's too easily hurt. The woman with this failing usually takes criticism of her club work as personal criticism. She stymies progressive action. Members may hesitate to make suggestions for fear of hurting her sensitive feelings.

The member who sulks when her pet scheme is defeated is equally burdensome to her organization. The important thing to learn, say our knowing clubwomen, is the need to abide by the majority's decision.

The member who monopolizes a meeting is another woman who hinders the progress of her club. This member, according to the veterans, usually wastes time with a long-winded presentation of her own ideas; is intolerant of others' suggestions.

Another common fault, they point out, is that of ducking committee service. A worse fault, however, is that of accepting a task and failing to see it through.

Returned To Prison For Four More Years

COLUMBUS, April 25—The Ohio Parole and Pardon commission has ordered George Mason, alias Melvin Shane, to serve two more years in prison, despite his record as a Detroit business man and union leader during the 12 years after his escape from the London prison farm.

Mason, who fought extradition after his arrest in Detroit last fall, returned unguarded to Ohio penitentiary March 16.

He must serve at least until March, 1949, when the commission will consider his case again.

The commission, explaining its action, said in a formal statement that the members expressed the belief that Shane's offense in slugging the guard and escaping in a state-owned automobile was of a very serious nature and that the assessment of two years for such an escape is thoroughly justified.

The two years for escape was assessed by William F. Amrine, superintendent of the London prison farm, and the penalty was approved by Gen. Frank D. Henderson, warden of the Ohio penitentiary, the statement added.

Vermont Man Heads News Publishers Association

(By Associated Press)
NEW YORK, April 25—David W. Howe, business manager of the Burlington (Vt.) Free Press, was elected president of the American Newspaper Publishers Association to succeed W. G. Chandler, a member of the Scripps-Howard advisory board.

The ANPA with election of officers ended its 61st annual convention which attracted a record representation of 1,143 publishers.

Edwin S. Friendly, general manager of the New York Sun, was elected vice president to succeed Howe; William L. Fanning, general manager of the Yonkers (N.Y.) Herald-Statesman, was elected

Weigle of the Yale Divinity school.

treasurer to succeed Friendly, and J. L. Stackhouse, president of the Easton (Pa.) Express, was named secretary to fill the vacancy caused by the death of S. R. Wynch, who was business manager of the Portland (Ore.) Journal.

Truman Says Reaction Good On Price Cutting

WASHINGTON, April 25—President Truman described as fair today the reaction to his assertions that prices generally are too high and should come down.

This was reported by Democratic party officials after a call at the White House.

They said: Mr. Truman reviewed his price stand at the informal meeting with Democratic leaders from Illinois, Indiana, Ohio and Missouri who are here talking party organization.

There were brief references to 1948 political prospects when Albert A. Horstman, national committeeman for Ohio, and Roy W. Harper, Missouri state chairman, told Mr. Truman he would carry their states if an election were held today.

WE MIND
OUR Q's—
AND P's

To our way of thinking, the man who arranged the alphabet put P and Q in the wrong order.

At least we figure that Quality ought to come ahead of Price—though we're well aware of the latter's importance.

So you find us always trying to strike the proper balance between doing a good job and doing an economical one. We try to give you the parts and materials you really need, the time it takes to do things right—and still not waste any of your hard-earned money.

That may not make us the cheapest place in town to buy good service—but we think it makes us the most satisfactory in the long run. Maybe somebody else can shade our costs but we'll guarantee you'll get no better value anywhere, or spend your money more wisely.

The reason we are interested in both Quality and economical Price is because we intend to do our best to grow with this community as your Buick Dealer. We must depend on you being highly satisfied with our service to make that come true—not merely satisfied for today or tomorrow but satisfied as a continuing Buick owner.

We believe you will agree with us that Q comes before P in the service alphabet—come on in and let's talk it over.

Beardmore Gladioli Gardens Selected For Experiments

The gardens of Mr. and Mrs. Charles Beardmore of 830 Summit st. have been selected by the North American Gladiolus council as one of its "trial gardens."

Sons Fred and Harry Beardmore will be in charge and the Tri-State Gladiolus society will supervise the test planting.

Mr. and Mrs. Beardmore, their sons and daughter, Lena, are well-known gladiolus growers, having won many honors in competitions in the tri-state area. They are members of the Tri-State group and the Wellsville Gladiolus club.

Of the 12 "trial gardens" in the United States and Canada, some are under college agriculture departments, some under the U. S. Agriculture department while others are supervised by leading flower clubs and planted in gardens of outstanding gladiolus growers.

The club's responsibility is to see that the test garden is conducted under the rules and regulations of the gladiolus council and to supply judges to tour the garden at different stages of growth and to score them.

When the bulbs are dug their condition and production are noted. Each judge makes his own individual scoring and all reports are tabulated according to varieties.

State Opens Bids May 6 On Road Improvements

Bids for improvements of Route 165, 164 and 172 and the Westville-Alliance-West road will be opened May 6 in Columbus, the state highway department announced today.

Route 165 and 164, in Smith, Green, Goshen and Beaver townships, will be resurfaced over a 12.33 miles area at an estimated cost of \$92,767.

In Stark county 5.2 miles of the Westville-Alliance road in Lexington, Washington, Marlboro and Nimishillen townships will be improved at an estimated cost of \$123,240.

Route 534 (Damascus-Newton Falls-Windsor road) in Goshen, Berlin and Milton townships will also be part of an 8.184 mile improvement.

Liquor Sales Decline

COLUMBUS, April 25.—Ohio liquor sales dropped nearly \$3,000,000 in January and February, 1947, as compared to the previous year, but net profits were higher, State Liquor Director Stanley B. Cofall announced today.

A gain in net profits was possible, said Cofall, because of a greater profit margin on retail sales, which were up to \$13,458,648 from the two-month 1946 total of \$12,714,341.

Largest slump came in sales to permit holders, down nearly 40 per cent to \$5,262,095 from \$8,742,702.

Justice Department Raps Radio's Crime Thrillers

CLEVELAND, April 25.—Young people who listen to radio crime mysteries normally make the criminal the hero instead of the cop. That's the complaint of James V. Bennett of the Department of Justice, an ardent foe of blood and thunder thrillers. He made his views known yesterday in a panel discussion on "radio crime mysteries and juvenile delinquency."

"The number of radio crime mysteries is on the increase," said Bennett, availing that 46 crime and mystery programs were on the radio at present.

Howard Barton, promotional head

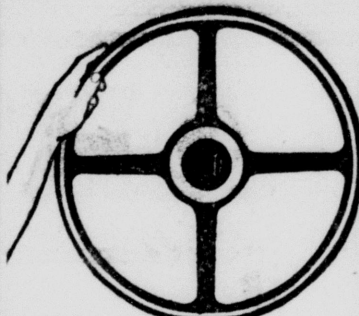

of station WTAM and one of the panel speakers, challenged Bennett's assertion that during the critical listening hours from 7 to 9 p. m. 21.9 percent of the time was taken by crime programs.

"A very recent check made by us showed 1,610 programs broadcast by Cleveland's four radio stations," said Barton. "Of these, only 51, or approximately three percent, were crimes and mysteries."

In Louisiana, the legislature voted to change the muskrat's name to marsh hare, to make the animal more edible.

U. S. Delegation Favors Public UN Military Report

NEW YORK, April 25.—The United States delegation to the United Nations announced today that it favored a full and open discussion of the forthcoming report of the highly secret military staff committee, charged with setting up a global police force.

The American delegation issued an official statement to deny that the United States had joined with the Soviet Union in efforts to block publication of the long-awaited report and bar public discussions on it in the security council.

Drop Price of Haircuts

COLUMBUS, April 25.—The price cutting movement was felt by suburban Grandview barbers today with the result that \$1 haircuts were trimmed to 75 cents.

Steve Masselli said six barbers had snipped their prices 25 percent across-the-board to help "get the ball rolling toward more fair living costs."

Steel Production Slowly Nears Wartime Peaks

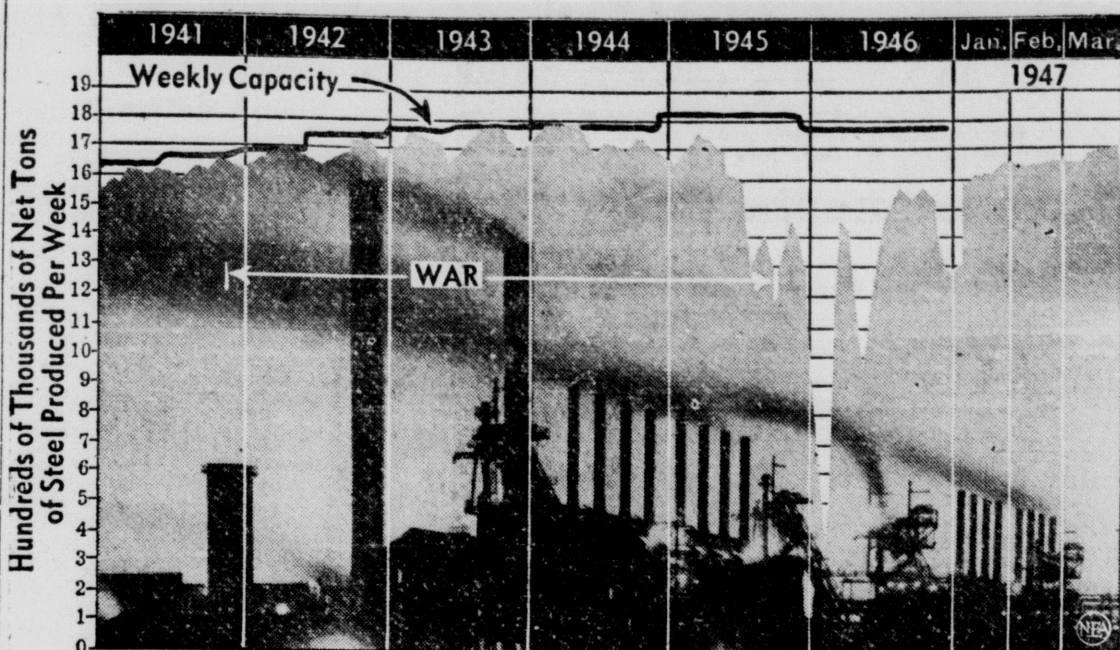

Chart above, prepared from American Iron and Steel Institute data, shows how weekly production of steel is climbing back, in 1947, from the lows it hit in 1946, when strikes and other disputes held it to only 72.5 per cent of annual capacity. During wartime months of 1945, operations averaged 83.5 per cent of capacity. Today's potential finished steel for peacetime uses is almost 16 per cent larger than in 1941.

Second Guessing

By DON E. BEATTIE
News Sports Editor

GRIDIRON DEPT.

It's hard to believe that a fellow who never touched a football during four years of high school, but zoomed away to college to become a four-year star at Miami university, could suddenly land in the top ranks—as a player with the all-powerful Cleveland Browns, champs of the All-America conference.

Nevertheless, Leo Less from nearby Greenford is the kid who did it. He left Greenford High in 1940 after participating in basketball and baseball there and entered Miami university. He played a whale of a game at tackle and was picked "most valuable" by his mates twice.

Leo isn't too well known in Salem as he never took part in athletics here, but others in the family are. Brothers and cousins have participated in Joe Kelley's Memorial building programs for years.

The big six-foot-two Miami graduate, who weighs about 200, will probably be used as a guard by Paul Brown of the Browns.

DEPT. OF CONJECTURE

Just to hazard a guess—take it for what it's worth—here's a prediction that Salem—like Pittsburgh and Cleveland—will be "ball happy" by the end of the summer season.

The innovation of lights at the Wilson st. softball diamond promises to really do things for the sport here. Long a popular spectator even in Salem, softball is now going to reach those fans who could not make it out to the park at 6 and 7 p. m. daily—a lot of folks' supper hours.

It's just a guess, but from this angle it appears that 500 seats in those bleacher sections are going to be somewhat under the requirements.

Softball is a great evening's entertainment. With the colorful uniforms, strong teams and other improved aspects this year, it looks like a lead-pipe cinch of a success.

OUT OF THE MAILS DEPT.

Away down south, where West Peller says the football isn't just so, and the South says his isn't just so, at South Georgia college, College, Ga., the annual football awards for varsity participation are being handed out.

From Coach Johnny McMillan of South Georgia college comes the word that Bill Guappone, an ex-Salem High athlete and a consistent performer in local sandlot ball and basketball, will receive his letter soon for the 1946 season.

He compiled an excellent record in football there, the coach writes, and is "among the best athletes we have here."

Congratulations to Bill, that's good advertising for old Salem.

DEPT. OF LAUGHS

You've no doubt heard of football officials being accused of being prejudiced. Well, here's a story that popped up that tops them all:

It seems the home town team was getting pushed steadily back towards its own goal line in a powerful drive by the opposition. But the opposition finally, on about the 20, bogged down somewhat and it

was fourth down with about a foot and a half to go for that all-important first and 10.

The foe decided to make the try and after the final play, the official—who had been calling them questionably all afternoon—unpled the mass of humanity at the line, picked up the ball, looked over to the stick marking the needed yardage, shook his head and yelled out "Not enough, it's OUR ball, first and 10!"

ODDS AND ENDS

The Indians' pitching thrilled many yesterday with Don Black chalking up his second victory in as many tries with a sterling four hit performance. That holds up the Big Three angle—Feller, Ebbree and Black—but Manager Lou Boudreau is still looking for No. 4.

Pat Seery, incidentally, whopped out his second homer of the season to give the Tribe its only run. The Junior Chamber of Commerce has lined up a new pitcher for the softball season, but they haven't disclosed his name.

Scalps were flying at the softball manager meeting at the building last night.

DeJane, Ramsey Second In Bowling Tourney

GRAND RAPIDS, Mich., April 25—Fort Wayne's Old Crown Ales rolled to a third place tie in the Women's International Bowling congress standings last night with a score of 2657.

The Indiana City quintet also set a new top team game score for the tourney when they hit 1001.

The Salem, O. team of Ann DeJane and Olive Ramsey had the second best doubles score of today's firing with 1086, but were 32 pins out of the leadership class.

Softball Notes

The Jaycee softball team will practice at Centennial park at 6 p. m. Monday.

The Salem Diner team will practice at the field adjacent to Reilly stadium at 5:30 p. m. Monday.

Donors Give \$300 To Softball Fund

Donations totaling \$300 boosted the Salem softball fund at the managers meeting at the Memorial building Thursday night.

Don Kopf, owner of the Quaker Pastry Co., presented Joe Kelley \$250 towards improvement of the Wilson st. diamond and the Veterans of Foreign Wars gave \$100 for that purpose.

Costs of equipping and lighting the Wilson st. field, leased to the city for a \$1 a year by the Electric Furnace Co., are estimated at more than \$5,000.

INDIANS COLLECT VICTORY ON PAT'S HOMER; BLACK WINS

Don Black's Second Victory Is Tribe's Fourth In Row In West

(By Associated Press)
CHICAGO, April 25—The Indians are doing well on the western war-path.

The Tribe's fourth consecutive win against clubs in the western sector of the league was Don Black's pitching victory, 1 to 0, over the White Sox yesterday, the one run being Fat Pat Seery's contribution. Today's problem was the matter of pitching.

Now that Bob Feller, Red Ebbree and Black have demonstrated their claims on the first three starting posts, the field appears wide open for the No. 4 spot. Al Gettel was scheduled for a test today, and the White Sox' probable contender was Lefty Lee.

Black, the former bad boy, was impressive against the Sox, retiring 10 men in a row, allowing the first hit in the fourth and finishing with only four hits charged against him. It was his second win of the season, against no losses.

Seery's bat furnished the game's only run in the second inning, when Pat lofted one into the lower left field bleacher seats. Johnny Rigney allowed only four other safeties none after the sixth.

Brooklyn, Boston at Philadelphia, Pittsburgh at Cincinnati, St. Louis at Chicago.

Managers Establish Final Arrangements; Leagues To Open Season Monday, May 5

Final organization arrangements for Salem's two Class A leagues were settled at a meeting of team managers at the Memorial building Thursday night.

They completed these arrangements for the approaching season:

- (1) Division of the 18 teams into the 10-team American league and the nine-team National league.
- (2) Monday, May 6, will be opening day at Centennial park.
- (3) The round system will be used to determine league champions, climaxed by a city series between the two league champions.
- (4) Player regulations as used in former years will be followed again.
- (5) Appointment of a league secretary, to be paid from league funds, to keep batting averages and player records for the entire season.

The division of the teams into two loops, done by drawing numbers from a hat, apparently resulted in the formation of a definite strong loop and a somewhat weaker league.

The 10-team American group includes Ebberts, Saxons, Crescent Machine, Hannays, Fratillas, Diner, National Grocery, AMVETS, Jaycees and the Hunter Machine (Washingtonville).

In the National league are Mullins, Crooks, Golden Eagle, Printz Club, Recreation, Electric Furnace, Veterans of Foreign Wars, Demings and Salem Tool.

Kelley, manager of the leagues, announced that play will open at Centennial park Monday, May 6 and will continue on both Centennial diamonds until the new Wilson st. diamond is ready for use.

After that, Kelley said, the A loop will use the northern park diamond and the Wilson st. diamond while the Class B league will take over the south park diamond.

The managers voted, 10 to 9, to use the round system of play this season in preference to the Shaugnessy system employed in 1946.

In the round system the season will be broken up into three or four rounds depending on the time available in which each team plays each of the others in the league once during a round.

Round winners in each league will vie for the league title at the close of the final round. Then the champions of the leagues will meet for the city title.

Player regulations, too numerous to mention here, will remain the same this year as in seasons previously operated on a round basis. The meat of the rules stipulates

that a player cannot change teams within a round, but must wait until the next round when switching teams. No new players can be signed or used during the final round of the season.

No player who does not live within ten miles of Salem (or is employed in Salem) may participate in the Salem league.

Robert Dixon was named secretary of the league and will be paid \$70 for the season for keeping loop records. The money will be raised by a contribution of players in the leagues.

Kelley said he would announce first round schedules early next week.

The managers will meet Thursday to turn in team rosters and player contributions.

The Golden Eagle softball team will practice at 5:30 p. m. Friday at Reilly field.

Wallace Cites U. S. Arabian Oil Aims

PARIS, April 25—Henry A. Wallace told the Anglo-American Press association today the United States was "in the Middle East to get the oil of Saudi Arabia."

"We are going to get that oil and I am a good enough American to want to see the United States get the oil," he said. "But I would like to use the United Nations so it would not seem so utterly damn imperialistic."

He explained that by using the United Nations he meant the United States should observe the U. N. charter which provides that natural resources of the world be made available to all on a "fair and equitable basis."

The former vice president's frankest discussion of American Middle East policy since he began his European tour, on which he frequently has criticized President Truman's course toward Greece and Turkey, included the assertion "I don't like the United States being branded as the world's greatest grabber."

Later, Wallace spoke at the famed Sorbonne in the final meeting of his European visit, and told an audience that France "must remain a democratic republic free of dictatorship aspirations."

Lidice Avenged; 5 Nazi Murderers Are Hanged

PRAGUE, Czechoslovakia, April 25.—Harold Wiesman and five of his Gestapo henchmen were hanged yesterday within a few hours of their conviction for the extermination of Lidice.
